Dock and Dumpster Treatment

Cleaner and Deodorizer

Cleaning the dumpster area is unpleasant and time-consuming for any employee. Soiled dumpster areas not only attract flies and rodents, they are a contributing cause to many slip and fall accidents. Traditional cleaning methods require physical scrubbing of the concrete, strong hazardous product and hundreds of gallons of water.

Dock and Dumpster Treatment instantly applies a “knock-down” fragrance and releases enzyme producing bacteria that attack fatty acid malodors and digest spilled food soils and grease that build up in dumpster areas, trash cans and docks. No scrubbing or rinsing — and it’s easily applied with a garden hose in 60 seconds.

That’s it! Save expensive time and water, and reduce the hazard of slip and fall accidents with Dock and Dumpster Treatment.

FEATURES

- Bioactive formula
- Hose connect sprayer
- Knock down fragrance
- No rinsing

BENEFITS

- Digests fats, grease and oil
- Convenient, fast effective application
- Immediate odor elimination
- Saves water

RECOMMENDED USES: For docks, dumpsters and surrounding dumpster areas.

PRODUCT DIRECTIONS

Equipment: Comes with disposable hose sprayer. Ready to use.

Directions to use: TO SPRAY AND APPLY PRODUCT: Connect spray attachment to hose. Pull back safety latch and rotate dial. Product automatically dispenses at correct dilution. FOR DOCK AREAS AND TRASH CANS: Spray 3 times per week to eliminate and prevent build up of slippery food soils and grease. FOR DUMPSTERS: Spray Dock and Dumpster Treatment into the interior and surrounding area of dumpster. Spray first when dumpster is freshly emptied. Spray treatment again when dumpster is 1/3 full. Spray the final treatment when dumpster is 2/3 full. Repeat process when dumpster is emptied.

PACKAGING: This product is available in 4/1 quart cases.
