

# Liquid Souring Agent and Softener

## Combination Souring Agent and Softener

Nonfood Compounds  
Program Listed (B2)  
(133866)

Liquid Souring Agent and Softener combines three functional laundry steps in one easy to use combination product. It includes the highest quality souring agents, excellent cationic fabric softeners and optical brighteners to leave cloth fresh, clean, bright and soft. It should always be used in the final rinse of the laundry program and can be used in high or low temperature operations. Not for use on VISA® linen.

<b>Foam</b>	None
<b>pH Use Dilution</b>	5.0 - 6.5
<b>Phosphorus Content</b>	5.2%
<b>Approvals</b>	NSF B2
<b>Water Temperature</b>	All

### Pack Sizes

<b>057689</b>	5 gallon pail
<b>057690</b>	15 gallon drum

### Directions For Use

**Equipment:** Recommended automatic liquid laundry injection system.

**Use Dilution:** Concentration varies due to environmental conditions. Your sanitation specialist will properly adjust product concentration to meet your needs.

1. Pre-sort laundry prior to wash.
2. Pre-soak and/or pre-spot laundry when necessary.
3. Place proper amount of soiled fabric into laundry machine.
4. In wash cycle, inject a recommended liquid laundry break and a recommended liquid laundry detergent or inject Combo®.
5. When bleaching, inject a recommended liquid laundry bleach.
6. When souring and softening in the final rinse cycle, inject this product.  
A final pH of 5.5-6.5 is recommended for the fabric.

\*This product can be used in all water temperatures. Your chemical specialist will adjust product concentrations based on results.
