

MULTI-UNIT ACCOUNT PROGRAM

U S Chemical's Multi-Unit Account Program is designed to provide customers with a consistent, quality, safe and environmentally friendly sanitation program for all of their locations. Our quality line of microTECH™ products are designed to provide you with superior results, employee safety, and environmentally responsible packaging. Included in the program are employee training, instructional wall charts and service. Training, service and product delivery will be provided by U S Chemical trained, regionally located distributors.

Easy to Handle Packaging

MicroTECH™ was designed to eliminate the inconvenience associated with replacing 5 gallon pails. The lighter 1.5 gallon canister can easily be changed by most employees.

Totally Enclosed Dispensing (TED)

Our TED system eliminates the chance of spills and splashes associated with other systems during product changeover. Chemicals can only be dispensed when the patented dispensing cap is engaged.

Reduce Waste & Freight

One case of 1.5 gallon canisters replaces two 5 gallon pails, reducing plastic waste by 80%. Micro technology significantly reduces freight costs, allowing us to pass those savings on to our customers.

Reclaim Additional Storage Space

MicroTECH™ products require less storage space than many other systems. Equipment and products are completely off the floor, making the surrounding areas fully accessible. Reclaim 60-80% of your storage space by replacing your 5 gallon pails.

Account Representative

Your Account Representative will provide regular unit performance reviews. The reviews will cover program results, service, delivery and product usage reports.

Employee Training

Employees will receive on-site training for proper sanitation procedures, product application and use. Dispensing equipment operation and safety procedures will also be covered.

Product Delivery

Multi-unit Account Program distributor partners ensure frequent delivery schedules, eliminating the need for excessive product inventories.

Safety Information

Location managers will be given a Safety Data Sheet (SDS) Binder containing the SDSs for all applicable products provided.

Service

Routine and emergency service is provided by distributor partner Chemical Specialists. Specialists have been trained by U S Chemical. Their focus is timely service, quality results and controlled use cost.

Wall Charts

Instructional wall charts will be provided for displaying near all product dispensing and use locations. This includes the dishmachine, manual warewash sink, pre-soak station, housekeeping, laundry and hand sink.

Solid Mechanical Warewash Detergent

SKU 5344793 (4/8 lb.)

Encapsulated Mechanical Warewash Detergent utilizes the latest ingredients that are less hazardous to the environment without sacrificing performance. This product provides excellent scale inhibiting properties and can be used in both low temperature and high temperature dish washing applications. Safe for use on all surfaces!

Mechanical Metal Safe Detergent

SKU 101105571 (1/1.5 gal.)

Mechanical Metal Safe Detergent is a super-concentrated, non-chlorinated, machine warewashing detergent. This formula is specially designed to be safe on metal. It will provide sparkling clean dishware in all water conditions and can be used in both high and low temperature dishwashing applications.

Mechanical Warewash Detergent

SKU 5325040 (2/1.5 gal.)

Mechanical Warewash Detergent is a super-concentrated, non-chlorinated, machine warewashing detergent. It is designed to provide sparkling clean dishware in all water conditions and can be used in both high and low temperature dishwashing applications.

Mechanical Warewash Detergent LP

SKU 101105448 (1/1.5 gal.)

Mechanical Warewash Detergent LP is a super-concentrated, non-chlorinated, machine warewashing detergent. This low phosphorus formula contains less than 0.5% phosphorus. It is designed to provide sparkling clean dishware in all water conditions and can be used in both high and low temperature dishwashing applications.

Micro-Pak Detergent

SKU 5512443 (4/9 lb.)

Micro-Pak Detergent is a highly concentrated, encapsulated warewashing formula. This product has a low use cost and is safe, simple and convenient to use. Its heavy duty formula easily removes tough, greasy soils. This product is for use in the BETA W500 unit.

HD Detergent for Hard Water

SKU 101107561 (1/1.5 gal.)

HD Detergent for Hard Water is a non-chlorinated, liquid, warewash detergent that has special water conditioners and grease emulsifiers to tackle tough jobs, even when washing in low temperatures. Strong, yet safe and economical, this product produces sparkling, clean dishes.

Mechanical Warewash Rinse

SKU 5325998 (2/1.5 gal.)

Mechanical Warewash Rinse is a super-concentrated machine warewashing rinse. It is designed to provide spot-free dishware in all water conditions and can be used in both high and low temperature dishwashing applications.

Surety™ Premium Rinse Additive

SKU 101105572 (1/1.5 gal.) | SKU 5487356 (2/1.5 gal.)

Premium Rinse Additive is designed to lower water surface tension, providing clean, spot-free dishware in all temperatures. This product will do an effective job in most water conditions eliminating the worry of water mineral spots remaining on the dishware.

epa.gov/saferchoice

Manual Utensil Presoak

SKU 5374511 (1/1.5 gal.)

Manual Utensil Presoak is a super-concentrated product designed for presoaking silver and stainless steel utensils. Its excellent soil-penetrating and softening abilities quickly loosen dried-on or hardened foods. Built with detarnishing capabilities, this product improves the look of flatware with one use.

Surety™ Utensil Presoak

SKU 5487428 (1/1.5 gal.)

Utensil Presoak is a highly concentrated product designed for presoaking silver and stainless steel utensils. Its excellent soil-penetrating and softening abilities quickly loosen dried-on or hardened foods. This product may also be used to detarnish silver plated flatware.

epa.gov/saferchoice

Sanitizer E.S.

SKU 5341373 (2/1.5 gal.)

Sanitizer E.S. is an effective sanitizer for all food contact surfaces when cleaned and processed through an approved mechanical warewash operation. This chlorine-based sanitizer can be used on pots, pans, glasses, silverware, cooking utensils and other surfaces commonly cleaned via the mechanical warewash operation. This product is EPA registered.

Shurguard Ultimate

SKU 5497407 (1/1.5 gal.)

Shurguard Ultimate is a disinfectant, sanitizer and deodorizer. It disinfects and sanitizes all hard, non-porous food contact surfaces such as tabletops, food prep utensils and food prep equipment. This product is an EPA registered sanitizer with a use dilution of 150-400 ppm.

Manual Pot & Pan Detergent

SKU 5326034 (2/1.5 gal.)

Manual Pot & Pan Detergent is a super-concentrated liquid detergent designed for all food service and manual cleaning. This lemon scented detergent is great for dishes, glasses, silverware, pots, pans and utensils. This product is kind to hands and works well in hard or soft water.

Phenom X Manual Pot & Pan Detergent

SKU 5374546 (1/1.5 gal.)

Phenom X is a super-concentrated, superior performing product. This manual detergent will quickly cut through the heaviest amounts of grease and fat while providing long lasting suds, making cleaning quick and effortless for food service personnel.

Lime-Out

SKU 5512283 (4/1 gal.)

Lime-Out is a non-foaming institutional strength acid, designed for deliming dishmachines. This product will provide fast, efficient lime removal and with regular use and will help extend the life of your equipment. This phosphate-free formula will not harm surfaces and is environmentally friendly.

Surety™ Delimer

SKU 5502721 (4/1 gal.)

Delimer is a high performance lime scale remover, providing quick penetration of lime soils and rinses free for exceptional results. This product is an excellent choice for recirculation cleaning of dishmachines as well as the general removal of mineral deposits on kitchen equipment or utensils.

Bar Glass Wash

SKU 5502940 (4/1 gal.)

Bar Glass Wash is a first tank sink washing detergent that leaves glasses sparkling clean and grease-free. It is effective for rotary or stationary brush operations, and is compatible with all commonly used last tank sanitizers. This product can also be used for care of windows, mirrors and other glass surfaces. It is mild to hands and leaves no residual odor.

Quickline™ TKO™

SKU 5512363 (6/1 qt.)

TKO is an oven and grill cleaner that totally knocks out grease! Its fast acting formula quickly penetrates burnt-on and built-up food soils. It is recommended for use on ovens, grills, hoods, fryers and stovetops.

All Purpose Cleaner/Degreaser

SKU 101100248 (1/1.5 gal.)

All Purpose Cleaner/Degreaser is a heavy duty alkaline-based solution designed for general purpose cleaning. It is effective on a variety of surfaces, removing grease and grime from range hoods, vents, broilers, grills, floors, walls and tables. Do not use on aluminum.

Terrifico™

SKU 101100506 (1/1.5 gal.)

Terrifico is a cleaner/degreaser that is suitable for use in commercial and industrial settings. This detergent emulsifies and holds soils in suspension for easy rinsing and wiping. It effectively removes oils, greases and soils from floors, walls, shower stalls, kitchen equipment, vehicles, boats, vinyl upholstery and more. Terrifico may also be used to remove soot, carbon, smoke, crayon, lipstick, wax and more!

Citrus Neutral Cleaner

SKU 101100250 (1/1.5 gal.)

Citrus Neutral Cleaner is a non-phosphate, all purpose solution for cleaning, degreasing and deodorizing. At varying dilutions, it removes grease, grime, dirt and the toughest stains from virtually all washable surfaces.

Surety™ Neutral Cleaner

SKU 101100274 (1/1.5 gal.)

Neutral Cleaner is formulated with a detergent system that provides the performance of a general purpose cleaner, without alkalinity or solvents. It is pH neutral and safe for use on most floor types and washable surfaces. It does not require rinsing on non-food contact surfaces and can be used in buckets, spray bottles or in automatic scrubbing machines.

Surety™ Hydrogen Peroxide G.P. Cleaner

SKU 101100275 (1/1.5 gal.)

Hydrogen Peroxide G.P. Cleaner is a unique product that is one of the most versatile general purpose cleaners available. From glass cleaning to carpet spot removal, this product has a variety of uses when used at different dilutions. Designed with a powerful surfactant, this product penetrates and lifts tough soils without harsh solvents or alkalis.

Surety™ Tub & Tile Cleaner

SKU 101100273 (1/1.5 gal.)

Tub & Tile Cleaner is a non-corrosive, mild acid restroom cleaner. It is great for daily use as it removes soils on restroom fixtures, tiles, shower doors and any other water washable surface. This product promotes sheeting action causing water to run off vertical surfaces without beading, leaving a streak-free finish.

Disinfectant 256

SKU 5374351 (1/1.5 gal.)

Disinfectant 256 is a phosphate-free, pH neutral formula designed to provide effective cleaning, deodorizing and disinfection. This product disinfects hard non-porous surfaces such as floors, walls, glazed porcelain, glazed ceramic tile, plastic surfaces, vanity tops, shower stalls, bathtubs and cabinets. This product is EPA registered.

Germicidal Cleaner

SKU 101100249 (1/1.5 gal.)

Germicidal Cleaner is both a germicidal detergent and deodorant. It disinfects, cleans and deodorizes in one labor-saving step. Recommended for use in hospitals, nursing homes, schools and restaurants. This product is EPA registered.

Non-Acid Restroom Cleaner Disinfectant

SKU 100878527 (1/1.5 gal.)

Non-Acid Restroom Cleaner Disinfectant is a heavy duty disinfectant cleaner that cleans, disinfects and deodorizes in one labor saving step. Can be safely used on a variety of hard, nonporous surfaces of bathroom fixtures, bathtubs, showers, sinks and toilets. This product is EPA registered.

Floorbac™

SKU 101100327 (1/1.5 gal.)

Floorbac™ is a super-concentrated specialty floor cleaner that uses surfactant cleaning technology combined with enzyme producing bacteria. While the top surface of the floor is cleaned, grease-eating bacteria are left behind to digest build up in porous tile and grout.

Ammoniated Glass Cleaner

SKU 5374415 (1/1.5 gal.)

Ammoniated Glass Cleaner is a super-concentrated product designed for fast, thorough cleaning of glass, porcelain, formica and chrome surfaces. It quickly removes soils without smudging or smearing. Ammoniated Glass Cleaner easily removes smoke film and grime from windows and auto interiors. Not for use on plastic or acrylic (Plexiglass®).

Surety™ Glass & Surface Cleaner

SKU 101100272 (1/1.5 gal.)

Glass & Surface Cleaner is a pH neutral and non-corrosive glass cleaner. It can be used on glass as well as many other water washable surfaces such as chrome, stainless steel, sinks, counter tops and bathroom surfaces. Surety Glass & Surface Cleaner leaves surfaces streak-free, wipes clean and dries quickly.

Fresh Linen Odor Neutralizer

SKU 5374466 (1/1.5 gal.)

Fresh Linen Odor Neutralizer is a super-concentrated general purpose air freshener and malodor counteractant that effectively eliminates malodors at their source. This product removes the odors associated with garbage pails, waste baskets, cigarette urns, garbage disposals, urinals, toilets, bed pans and more.

Indigo Ocean Odor Neutralizer

SKU 101100479 (1/1.5 gal.)

Indigo Ocean Odor Neutralizer is a super-concentrated general purpose air freshener and malodor counteractant that effectively eliminates malodors at their source. This product removes the odors associated with garbage pails, waste baskets, cigarette urns, garbage disposals, urinals, toilets, bed pans and more.

Shurguard Ultimate

SKU 5497407 (1/1.5 gal.)

Shurguard Ultimate is a disinfectant, sanitizer and deodorizer. It disinfects and sanitizes all hard, non-porous food contact surfaces such as tabletops, food prep utensils and food prep equipment. This product is an EPA registered sanitizer with a use dilution of 150-400 ppm.

Break

SKU 5331870 (2/1.5 gal.)

Break is a hyper-concentrated alkaline builder which contains water conditioners and iron inhibitors. This unique formula provides great grease fighting ability while handling the toughest water conditions including iron.

Built Detergent

SKU 101105573 (1/1.5 gal.)

Built Detergent is a super-concentrated formula featuring highly active laundry builders and superior quality surfactants. Designed for all soil and water conditions, including iron, this detergent offers unmatched levels of performance, convenience and low use cost.

Liquid Laundry Suds

SKU 5394619 (2/1.5 gal.)

Liquid Laundry Suds is a detergent designed for use in combination with a liquid laundry break in automated laundry dispensing systems. The combination of these products provides the ultimate in cleaning performance, economy and flexibility. It rapidly wets and penetrates cloth, lifts soil, emulsifies greases and oils and prevents soil redeposition.

Suds

SKU 5331933 (2/1.5 gal.)

Suds is a hyper-concentrated formula with a blend of superior quality detergent surfactants. This formulation provides excellent emulsification of soils and prevents their redeposition onto fabric. Designed for use in all water and soil conditions, Suds exhibits outstanding cleaning ability at extremely low use rates.

Softener

SKU 5336478 (2/1.5 gal.)

Softener is a hyper-concentrated formula that provides the most effective and economical results in applications where a separate softener is preferred. It can be used with or without microTECH™ Sour, providing the flexibility needed in many institutional settings. This product has a pleasant citrus scent, leaving fabrics smelling great, as well as soft and static free.

Sour

SKU 5336742 (2/1.5 gal.)

Sour is a hyper-concentrated formula that provides the most effective and economical results in applications where a separate sour is preferred. This product can be used with or without microTECH™ Softener and provides effective pH control, eliminates iron staining and prevents yellowing on all types of fabric.

Sour/Soft

SKU 101105577 (1/1.5 gal.)

Sour/Soft is a super-concentrated formula that provides the most effective and economical results where a combination sour and softener product is preferred. This unique combination formulation has the ability to inhibit iron deposits, reducing the need for separate sour and softener.

Destainer

SKU 5337745 (2/1.5 gal.)

Destainer is the highest quality concentration of liquid chlorinated bleach available for use in institutional laundries. This product is produced to stringent manufacturing controls, ensuring the highest available chlorine content and maximum shelf life.

Oxygen Bleach

SKU 101105575 (1/1.5 gal.)

Oxygen Bleach is a versatile product that provides excellent cleaning ability, yet is safe to use on all types of colored and synthetic fabrics. Oxygen Bleach aids in the overall success of today's complicated laundry programs.

Laundry Pre-Spotter

SKU 5388155 (12/1 qt.)

Laundry Pre-Spotter does an outstanding job eliminating stains on most fabrics. Applied directly to the stain or spot, this product works immediately to penetrate the fibers, solubilize soils and prevent redeposition. This product eliminates the need for several types of spotters and aids overall detergent ability — a bonus for all laundry operations.

BULK LAUNDRY *detergents • break • destainer*

Break

SKU 5388711 (15 gal.) • SKU 5411335 (55 gal.)

Break is a hyper-concentrated alkaline builder which contains both water conditioners and iron inhibitors. This unique formula provides great grease fighting ability while handling the toughest water conditions including iron.

Combo

SKU 5388121 (15 gal.)

Combo is a high quality built liquid detergent featuring a powerful combination of alkalinity and surfactants for superior results. It is designed for automatic injection into commercial laundry machines for use in both health care and hospitality laundries. This product will work well in low and high temperature wash formulas and can be used on all washable fabrics.

Liquid Laundry Suds

SKU 5391944 (15 gal.)

Liquid Laundry Suds is a liquid detergent designed for use in combination with a recommended liquid laundry break in automated laundry dispensing systems. The combination of these products provides the ultimate in cleaning performance, economy and flexibility. It rapidly wets and penetrates cloth, lifts soil, emulsifies greases and oils and prevents soil redeposition.

Suds

SKU 5391451 (15 gal.) • SKU 5411503 (55 gal.)

Suds is a hyper-concentrated formula with a blend of superior quality detergent surfactants. This formulation provides excellent emulsification of soils and prevents their redeposition onto fabric. Designed for use in all water and soil conditions, Suds exhibits outstanding cleaning ability at extremely low use rates.

Destainer

SKU 5512241 (5 gal.) • SKU 5389019 (15 gal.) • SKU 5487170 (55 gal.)

Destainer is the highest quality concentration of liquid chlorinated bleach available for use in institutional laundries. This product is produced to stringent manufacturing controls, ensuring the highest available chlorine content and maximum shelf life.

Liquid Oxygen Bleach

SKU 5389086 (15 gal.)

Liquid Oxygen Bleach is a blend of oxygen bleaching agents specially formulated for use on synthetic fabrics and colored laundry. It is safe to use with enzyme presoaks and regular laundry detergents. Its exceptional mildness allows it to be added to the laundry during the filling operation. While it may be used in all temperatures, hot solutions work best for bleaching and cleaning.

Liquid Antichlor **SKU 5505438 (15 gal.)**

Liquid Antichlor is an effective liquid anti-chlorine compound that prevents unwanted residual chlorine on treated fabric. It is capable of removing many reducible stains.

Liquid Laundry Size **SKU 5388198 (5 gal.)**

Liquid Laundry Size is a synthetic sizing utilized during the final rinse. It adds body to polyester and cotton/polyester blend table linens and napkins. Linens must be thoroughly cleaned during wash cycles prior to using this product, as oily soils reduce the efficiency of the sizing. It is essential that this product be used as directed, as misuse may cause a sizing buildup in the linens.

Liquid Laundry Sour and Rust Remover **SKU 5389220 (15 gal.) • SKU 5487807 (55 gal.)**

Liquid Laundry Sour and Rust Remover is specially designed to neutralize the alkaline residues of detergents, water hardness minerals or iron in the rinse cycle of laundry programs. It can be used in any type of automatic laundry chemical feeding system. It prevents fabric harshness, excess wear and browning during ironing. It will also eliminate iron stains for superior laundry results.

Liquid Sour 'N Soft **SKU 5389262 (15 gal.)**

Liquid Sour 'N Soft combines three functional laundry steps in one easy to use combination product. It includes the highest quality souring agents, excellent cationic fabric softeners and optical brighteners to leave cloth fresh, clean, bright and soft. Designed for use in the final rinse cycle of the laundry program in both high and low temperature operations.

Whisper **SKU 5389297 (15 gal.) • SKU 5487233 (55 gal.)**

Whisper is a liquid cationic fabric softener for all types of laundry operations and provides fluffy and soft fabric! This product is economical to use because it reduces the pulling and extraction time of loads. It also eliminates static, reduces sticking and increases comfort of all clothes and linens.

Green Seal

Green Seal works with manufacturers at all levels to “green” the production and purchasing chain. We utilize a life-cycle approach, which means evaluating a product or service beginning with material extraction, continuing with manufacturing and use and ending with recycling and disposal. Products only become Green Seal certified after rigorous testing and evaluation, including on-site plant visits.

When a product becomes Green Seal certified, it means that the product has been tested according to science-based procedures, that it works as well or better than others in its class and that it has been evaluated without bias or conflict of interest. The Green “Seal of Approval” has come to stand for reliability, fairness and integrity.

The Green Seal provides a business advantage, for it identifies a product as environmentally preferable, provides third-party corroboration of environmental claims and distinguishes a product from competitors that can't support their environmental assertions. The Green Seal may be used on packaging, in promotional material, in catalogs and in advertising for products that have been certified to meet the applicable standard.

High Efficiency

Washer manufacturers recommend that only high-efficiency (HE) detergents be used in their front-load and high efficiency washers. HE detergents are concentrated laundry detergents that are low-sudsing and designed for use with low water high-efficiency washers. If regular detergents were to be used in front-loading and high-efficiency washers, the presence of excess suds could 'confuse' washing cycles, cause delays and make proper rinsing of clothes difficult. Using the proper HE detergent for your high-efficiency low water washer will enable your laundry appliance to perform as it should.

Ozone Friendly

Products with this symbol are considered to be ozone friendly. They are created with substances that do not create gases that are harmful to the ozone layer.

Readily Biodegradable Surfactants

The Readily Biodegradable Surfactants symbol reflects that the product has changed to incorporate biodegradable surfactants, replacing alkylphenol ethoxylates (APEO's).

Surfactants are used in a variety of applications including fabric cleaners, surface cleaners and other detergent formulations. The term “surfactant” means “surface active agent”. Many surfactants give rise to environmental concerns due to their poor biodegradability, their toxicity and their potential to act as endocrine disrupters.

Safer Choice

The Safer Choice Program, formerly known as the Design for the Environment (DfE) Safer Product Labeling Program, was developed in 1997 and draws upon chemical and environmental expertise from across EPA. Safer Choice uses the technical tools and expertise of EPA's New Chemicals Program to evaluate the environmental and human health impacts of every chemical ingredient in a product, allowing only the safest ingredients in labeled products. As a voluntary partnership program, Safer Choice brings all interested parties together to advance sustainability in chemical products.

DELIVERY CAP

set up & removal

Remove shipping cap from the product by twisting off.

Position delivery cap on to the product and push down firmly in the center.

While pushing down, screw the cap tight. Position the barb towards its connection tubing.

TO REMOVE: Unscrew white ring and move side to side to release.

ANGLED BARB

STRAIGHT BARB

There are two different delivery caps available for use. The instructions for set up are the same for both caps.

Angled Barb Connection Cap SKU D5722491

Straight Barb Connection Cap SKU D6081606
