IMPORTANT

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is available on our website at www.uschemical.com and is also available by scanning the QR code on the label.

PRODUCT DIRECTIONS

EQUIPMENT TO USE

Recommended automatic liquid laundry injection system.

DIRECTIONS TO USE

USE DILUTION: Concentration varies due to environmental conditions and load size. Your sanitation specialist will adjust properly to meet your needs.

1. Pre-sort laundry prior to wash.
2. Pre-soak and/or pre-spot laundry when necessary.
3. Place proper amount of soiled linen into laundry machine.
4. In wash cycle, inject microTECH™ Break and microTECH™ Suds or microTECH™ Liquid Laundry Suds.
5. When bleaching, inject microTECH™ Destainer or microTECH™ Liquid Oxygen Bleach.
6. When souring and softening, inject microTECH™ Liquid Sour 'N Soft.

A final pH of 5.5-6.5 is recommended for the fabric.

*This product can be used in all water temperatures. Your Chemical Specialist will adjust product concentrations based on results.

PACKAGING

This product is available in 15 gallon drums (5389262).

*Specially formulated for optimal results when used with OMNI's LUX Advanced Oxidation System. OMNI's patented system allows the user to use less hot water, less total water and improves disinfection during the wash process.
