

U S Chemical

VIRTUAL

APP

Forget trying to decide which product works best for your toughest cleaning jobs. The app allows you to “walk through” various rooms such as a dining room, restroom or kitchen. Click on a surface and a list will pop up with the suggested products for that particular application. This app does not stop there! Select a product from the list and view the product image, description and tech sheet—all at your fingertips! You may also email or print the product information. Please note this app currently ONLY works on an iPad or your computer.

HOW TO
DOWNLOAD
TO YOUR iPad

- 1 Visit virtualguide.uschemical.com/
- 2 Add the application to the home screen by tapping the icon, similar to the one on the left, and following the instructions.
- 3 From the iPad home screen, click on the “Virtual Guide” icon.
- 4 Now you will have access to the different rooms and the products inside.
