IMPORTANT

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is provided with each container shipped. It is also available on our website or from the distributor.

PRODUCT DIRECTIONS

EQUIPMENT TO USE

Mop or floor machine, wet vacuum or bucket with wringer, rubber gloves, eye protection and wet floor signs.

DIRECTIONS TO USE

Floors will become very slippery when stripper is applied. Exercise caution. Using MISCO GENESIS™ Strippit is easy. Blockade areas to be stripped. Dilute one part MISCO GENESIS™ Strippit concentrate to five parts water. Mop or spray solution onto surface until the entire floor area is covered. Allow solution to remain on surface for 5 to 10 minutes. If base boards need stripping, apply solution with bowl mop. When the floor finish has dissolved, scrub or mop away. Rinse thoroughly, at least twice, with clean water before applying fresh coat of floor finish. **NOTE:** Do not use on wood, linoleum or cork floors. Always pre-test the floor with a small amount of solution before stripping.

PACKAGING

This product is available in 5 gallon pails (065488).
