

Rinse Aid HW

Rinse Additive for Hard Water

Rinse Aid HW is a specially designed product to handle the problems of water hardness in the final rinse of mechanical dishwashers. It is a heavy-duty rinse additive, which will eliminate spots on all types of kitchen utensils as well as preventing gross deposits of water hardness minerals in the rinse section of the dishmachine. This product can be used in the hardest of water supplies with excellent results.

DIRECTIONS FOR USE

Equipment: Recommended warewash rinse injector.

Use Dilution: Concentration varies due to environmental conditions. Your sanitation specialist will adjust properly to meet your needs.

1. Pre-flush and/or scrape dishes before washing.
2. Rack dishes properly. Place dishes in machine.
3. Wash using a recommended mechanical warewash detergent. Should maintain 150°-160°F wash temperature.
4. For rinse cycle use this product. Be sure rinse injector is working properly. Should maintain 180°-190°F rinse temperature.
5. Allow dishes to air dry.

SAFETY REMINDER

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is available on our website at www.uschemical.com and is also available by scanning the QR code on the label.
