

# Liquid Laundry Break

## Alkali Booster

Liquid Laundry Break is a concentrated alkaline break for use in automatic liquid dispensing systems. It can be used to boost cleaning effectiveness in the wash cycle. This product is a concentrated blend of high alkaline detergent builders, emulsifiers, water conditioners, and soil suspension agents. It is designed to be used in combination with a liquid laundry detergent for optimal cleaning efficiency.

### DIRECTIONS FOR USE

**Equipment:** Recommended automatic liquid laundry injection system.

**Use Dilution:** Concentrations will vary due to environmental conditions and load size. Your sanitation specialist will adjust properly to meet your needs.

1. Pre-sort laundry prior to wash.
  2. Pre-soak and/or pre-spot laundry when necessary.
  3. Place proper amount of soiled fabric into laundry machine.
  4. In wash cycle, feed this product and a recommended liquid laundry detergent.
  5. When bleaching, feed a recommended liquid laundry bleach.
  6. When souring and softening, feed a recommended liquid sour and softener. Works best in the final rinse cycle.
- A final pH of 5.5-6.5 is recommended for the fabric.

### SAFETY REMINDER

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is provided with each container shipped. It is also available on our website or from the distributor.
